Summer International Travel Grants

Summer International Travel Grants give you the freedom to design your own summer experience abroad. Travel independently to a location of your choice and carry out original research or study the local language. Funding begins at \$4,000, and each year the College awards approximately 100 grants to support these efforts.

Foreign Language Acquisition Grants

Pursue intermediate or advanced language study in the location and program of your choosing. Programs must be at least eight weeks long and located in a setting where the target language is predominantly spoken. These grants are ideal for students who are seeking an independent immersion experience.

International Research Grants

Conduct independent research in all corners of the world, from field archaeology in Peru to molecular dynamics in Sweden. Often this work leads to a BA paper. Further information about Summer International Travel Grants, including application instructions and deadlines, can be found at **study-abroad.uchicago.edu**.
